MONTHLY CHECKLIST OF STATE PUBLICATIONS

Compiled by
Exchange and Gift Division
Processing Department

1976
SEPTEMBER
VOLUME 67
NUMBER 9

LIBRARY OF CONGRESS, WASHINGTON, D.C.

Introduction

The *Monthly Checklist of State Publications* is a record of State documents issued during the last five years which have been received by the Library of Congress.

Monographs are listed each month as they are received and are arranged by State and issuing agency. Included among them are annual publications and monographs in series. The latter are listed as contents under the series title except for publications in college and university bulletin series and similar materials, which are listed under their monographic titles.

Periodicals are listed semiannually in the June and December issues, with the December list cumulative for the year.

Publications of associations of State officials and of regional organizations and library surveys, studies, manuals, and statistical reports appear in two sections at the end of the listing of monographs by State.

For each publication, the price and pertinent bibliographic information, such as changes in titles and in names of issuing bodies, are given when known. The Library of Congress card number is also shown at the end of each entry when available.

A few categories of publications, such as college and university catalogs, loose-leaf additions, slip laws, and certain ephemeral material such as blank forms and publishers' announcements, are not included in the *Checklist*. Listings of State university press publications are limited to those which by reason of their content or series title appear to be official publications of the university.

The publications listed are not distributed by the Library of Congress but may be obtained in most instances from the agencies issuing them.

An annual index to the monographs appears early in the following year. A separate title page for the entire volume is provided with the index.

The value of the *Checklist* depends in large part on the cooperation extended by State agencies. They are requested to send to the Library of Congress copies of all their publications and issuances, including materials described above that are not listed. They are also requested to send the Library bibliographic information that does not appear on the publication itself and changes in titles of publications and names of issuing bodies.

ALABAMA

STATE HIGHWAY DEPT. Bureau of Research and Development. Alabama highway research HPR report. [Montgomery]

- 12867 -

76. Early detection and correction of sinkhole problems in Alabama, with a preliminary evaluation of remote sensing applications, by J. G. Newton. Prepared by U. S. Assns. of State Officials	42	217
Total	2248	19167*

*Includes all monographs and periodicals recorded. Fewer numbered entries appear in the checklist itself because entry numbers are assigned for indexing purposes only and several items are listed collectively under single entries, for example annual reports, maps, and pamphlets. In addition, entry numbers are not assigned to the periodicals. Therefore, entry numbers do not reflect actual totals.
